Cooking for you exclusively, renowned, Michelin star chef, Adam Simmonds

Since an early age cooking has always been in Adam's blood and his interest and passion for cooking led him to London to work in some of the finest kitchens such as Le Gavroche, The Ritz, The Halkin, The Conservatory at The Lanesborough, Les Saveurs, L'Escargot, Heathcotes, Le Manoir aux Quat'Saisons.

Adam's Michelin star came in 2006 in Wales at Ynyshir Hall and then again in 2010 for three consecutive years at Danesfield House, near Marlow under his restaurant Adam Simmonds at Danesfield House. He also achieved a prized four rosettes in the AA Restaurant Guide (for five years running), and a consistent 8/10 rating in the Good Food Guide, placing Adam and the restaurant 13th in the UK among top establishments.

Adam was named Hotel Chef of the Year at the 2011 CATEY awards and reached the semi-finals of The British Culinary Federation's Chef of the Year competition. He was also tipped by the Good Food Guide as one of the top ten chefs to watch that decade.

In 2013 and 2014 Adam represented London and the South East on the BBC's Great British Menu becoming a finalist in the 2014 series where he cooked the starter course for the war veterans in St Pauls Cathedral at the 70th Anniversary of D-Day. Then in November 2013, after leaving Dansfield House, Adam started at Pavilion on High Street Kensington, London and also did a number of consulting roles until he fulfilled his dream of returning to London to open a pop up in Soho called the test kitchen that ran for 12 months. In 2019, after his own struggles, Adam became a Chief Ambassador for The Burnt Chef Project with a vision to use his own experiences to help others and promote a healthier and more conscious environment in the hospitality industry.

2023 saw Adam take on the meaningful role of Chef Director at Home Kitchen, a fine dining restaurant in London's Primrose Hill, dedicated to providing life-changing opportunities for individuals who have experienced homelessness. This social impact restaurant allows Adam to combine his culinary expertise with his passion for community transformation, using fine dining as a pathway for skill-building, stability, and self-confidence among the staff. Here, Adam's philosophy of thoughtful, creative cooking meets a larger mission, making each service a testament to the power of food in transforming lives.

Simultaneously, Adam took up the position of Chef Patron at the Megaro Hotel in King's Cross, where he unveiled his much-anticipated restaurant, Voyage with Adam Simmonds, which opened in January 2025. This venture, an intimate yet innovative dining experience, reflected Adam's journey through decades in the culinary world.

Jon consistently ensured the health and safety of the group, conducting dynamic risk assessments and working closely with our in-country guides to enable us to thoroughly enjoy the experience. He was great to work with. I hope that we have the opportunity to work with Jonathan again in future as he was an excellent leader for this kind of trip."

After breakfast you will visit Boudhanath's local market and Kathmandu Durbar Square. Plus Boudhanath Stupa, a UNESCO World Heritage Site, important as it is one of the oldest and biggest Buddhist monuments in Nepal, serving as a key point for Buddhist pilgrimage. Once a crucial layover point on the ancient trade route to Tibet, it later became a settlement for Tibetan refugees. Here, the bustling streets and narrow alleys around the stupa are filled with colourful homes, Tibetan Buddhist monasteries, and the lively presence of street vendors. Though its origins remain unrecorded, legend tells of a humble woman and her four sons who, in the 5th century, undertook the construction of this remarkable stupa. Every day, numerous Buddhists engage in a daily ritual of circling the stupa three times while chanting the powerful mantra 'Om Mane Padme Hum' in a practice called "kora". Colourful prayer flags fastened to the stupa sway in the breeze, carrying your prayers toward the heavens, creating a serene and uplifting experience.

DAY 03: May 12 **KATHMANDU OR RAMECHHAP-LUKLA-** **PHAKDING (2,652m/8,700')**

Early in the morning, we will be escorted to the domestic terminal of Kathmandu or Ramechhap Airport to board our flight to Lukla (2,800m), which takes approximately 30-35 minutes. Scenic walk for acclimatisation

Our walk towards Chheplung begins through the stone paved trails where you make your way through numerous prayer rocks while enjoying the scenic and energetic village of Lukla. Here you can capture some of the most beautiful rural scenery on the entire trek. This first and short hike is specifically designed for the purpose of acclimatisation. However, on reaching Phakding also known as the Lodge City, you can freshen up and take a trip to the nearby Monastery (on the west side of the river and half-a-hour from the main part of Phakding to stretch your legs. and VISIT EVEREST BASE CAMP
(5,320m/17,450') – Famous Kale Patthar

As we reach Gorakshep – where we'll have lunch, we will be surrounded by snow-capped mountains, including the majestic Mount Everest, the highest mountain in the world. After a brief lunch and rest, we take the trail to Everest Base Camp through the once vast Gorakshep Lake. Continuing straight ahead, we come through the Indian army mountaineers' memorials. As we reach Everest Base Camp, we cannot help appreciating the Everest climbers that take the hazardous route through the Khumbu icefall. Mountaineers' tents stand out in bright colours against all the dull grey surroundings. Nuptse, Khumbuste and Pumori are the mountains we can view from base camp. Everest actually is not visible from this juncture, but we have now met the ultimate objective of our trip. The sunset view from Kala Patthar is more admirable than the sunrise view, so we'll visit Kala Patthar during sunset. This is one of those moments you'll never forget, as the sun's rays strike the snow-capped mountains.

However, we can provide details of reputable providers who have a track record of great services on the understanding this is not deemed as advice of provider.

Acclimatisation

This trek's itinerary is planned with a high degree of awareness of Acute Mountain Sickness (AMS). Experts agree that gaining elevation without proper consideration of AMS could be fatal. The higher the altitude, the less oxygen will be in the air. Therefore, our body needs time to adapt to an environment with less oxygen. During this trip, we take rest in Namche Bazaar and Dingboche which will help us acclimatise to the high altitude thus resulting in a successful trip. We provide all clients access to online High Altitude Awareness courses as part of our package. Equally, we can provide group altitude adjustment training for clients at a nominal cost should they desire in Leeds. For further details please let us know.
